CHAPTER & VERSE:

C&V is often referred to as Advertising Agency, but what we really do is solve problems. And since not all problems require advertising, we spend much of our time branding, packaging, writing, researching, crafting title art or creating content, launching social media campaigns and building out environments.

We take a lot of pride in our culture. We're one of the few agencies in the world with a 4-day work week. And we're an ESOP—which means employees own stock in the company. We're passionate about what we do and creating work that works. And we're looking for someone who feels the same way.
